I'm an electronic music producer dedicated to crafting captivating sounds that blend nostalgic elements with futuristic energy. Over the past year, I've released five tracks on Spotify so far, each showcasing my evolving sonic identity.

### Discography

◆ *Haunt Me Baby (Dance Allure)* – A hypnotic, seductive house track designed to haunt your senses and pull you into its rhythm. Crafted with precision, it embodies deep allure and movement, making it an irresistible addition to the night.

◆ *Swanky Retrospective (Vaporwave Version)* – A dreamy, retro-futuristic take on the original, infused with ambient textures and nostalgic, slowed-down rhythms, perfect for chill, atmospheric vibes.

◆ *Swanky Retrospective* – A fusion of RnB, soul, and funk with a retro twist inspired by the 80s and 90s. Smooth grooves, lush melodies, and timeless energy make it ideal for both relaxed listening and upbeat settings.

◆ *Baematic (Night Vibes Vaporwave Version)* – A sultry, dreamy escape that transforms the original into a slowed-down, reverb-heavy blend of piano house, deep beats, and atmospheric synth textures—perfect for late-night drives.

◆ *Baematic* – A piano house and dance-driven track with dynamic drops, soulful Rhodes harmonies, and sophisticated chords. It tells a compelling story of a man's intricate relationship with an AI-powered companion, brought to life through an anime music video.
